## Correspondence.

### R. S. Lake's Position.

To the Editor of The Progress.

There appears to have been some discussion in certain quarters as to conditions which Mr. R. S. Lake is alleged to have placed upon his acceptance of the nomination of the Conservative convention recently held at Grenfell for the selection of a candidate for Eastern Assiniboia. In order that Mr. Lake's position may be thoroughly understood by all, I am authorized to publish an extract from a letter written by him since his nomination. This letter was written expressly with a view to settling all questions as to his political allegiance. It has, as will be seen, no uncertain sound and the position he takes is the one, above all others calculated to enable him to best serve his country and his constituency. The extract is as follows: "I am not going to seek election as an Independent with Conservative leanings or anything approaching it, but as a Conservative, with the right to assert myself should any other member of the party take any action which I believe detrimental to the interests of the N. W. T."

Mr. Lake has been unavoidably detained in England, but he will return to Grenfell about the 13th of September after which he will hold a series of meetings throughout the constituency. Mr. Douglas will be invited to attend these meetings and the electors will then have ample opportunity of deciding as to the one by whom their interests will best be served.

Yours truly,

A. D. DICKSON,  
Sec'y-Treas. Eastern Assn.  
Liberal Conservative Ass'n.

### Prince Albert Baby Found.

West Prince Albert, Assn., Sept. 1.—The little McBride child, which was lost in the woods North of the Saskatchewan river, was found about 2 o'clock to-day by Mr. Wm. McKay, who came across it in a thicket about four miles from where it was last seen. The child was lying on its back with its legs in the water of a small swamp. It was only partially conscious, but appeared to recognize its father. It was brought to town and taken to its home, surrounded by cheering crowds clamoring for just a glimpse of the little one whom they had worked so faithfully to recover. Dr. Spence thinks it will be all right in a few days.

It had been lost exactly four days, during which time it had lain continuously with the exception of a few hours. The citizens of Prince Albert had practically abandoned their business during all this time, and deserve great praise for the manner in which they clung to the search. They are now returning in crowds, and it will probably be morning before the ferry brings the last of them to this side of the river. The child's mother is completely prostrated.

### POISON IVY.

It is not generally known that poison ivy (thus texted) does not grow as an ivy in Manitoba and Assiniboia, but so far as years of observation can show, this is the case. It is also known as "poison oak."

We have set to find this plant in this immediate neighborhood, but have discovered it at Fort Qu'Appelle and along the Assiniboine and Red rivers. It is probably to be found on the banks of most of the streams of the west.

The ivy oak usually grows from one to two feet high in the

west, has three light green leaves to a stem and these somewhat irregular, resembling in shape those of the Virginia Creeper. These leaves turn red in the autumn. Hence the Latin name "rhus."

The plant belongs to the sumac family. In itself it contains no poison but is believed to be covered with poisonous bacilli which get into the pores of the skin and produce the inflammation. All people are not affected thereby. Some are much more susceptible than others. In some cases a person merely in proximity to the plant will be poisoned, while others will not be affected even by handling it. A peculiar characteristic of the poison is that the person affected may have periodical returns of the affliction at the same time of year that the original poisoning took place.

The juice of the spotted touch-me-not is said to be an antidote to the poison.

### Territorial and General News.

G. H. V. Bulyea spent a few days recently in British Columbia, in the famous Okanagan Valley.

"Safety from lightning is easily secured," says the Scientific American. "Simply put on your rubbers and stand so your clothes do not touch any thing and you are perfectly safe."

The C. P. R. strike in the west has at last been settled and the men have returned to work.

R. S. Lake, M.L.A., is expected home about the 13th inst.

According to a correspondent of the Yorkton paper the Doukhobors and ranchers do not live any too harmoniously and it is likely that the result will be trouble as threats are quite frequent. The Doukhobors are charged with breaking fences, stealing hay, and altogether two are held in bail at \$200 each, five were committed for trial, and three were discharged. Other cases will soon be tried.

Premier Haultain and Minister of Public Works Ross have been among the Mormons in Southern Alberta spreading the gospel of provincial status for these Territories. Provincial rights will evidently be the cry at the next local election. The ministers are working the business for all there is in it. The Cardston Record says the Premier struck the right note when he said: "For every right taken from this territory, when we ask for provincial rights we will demand restitution, and pay for the mistakes made by the province of Manitoba, we will accept only that which is right and satisfactory or we will remain just where we are at present."—Medicine Hat News.

Mr. Walter Scott arrived in the village on Monday accompanied by Mr. P. Bredt, of Edenwald. They spent Monday in the village campaigning and left for Strassburg on Tuesday morning.—Lanaden correspondent of The West.

Mr. J. M. Kay, teacher at Breslay, has resigned that position to accept the principalship of Fort Qu'Appelle school. He visited Regina on Saturday and Sunday.—The Leader.

Calgary, Alberta.—A meeting of the Territorial Horse Breeders Association will be held in Calgary next month during the exhibition. Hon. Sydney Fisher, minister of agriculture, Prof. Shaw, of Minnesota, an authority on live stock matters, and Hon. G. H. V. Bulyea, minister of agriculture for the Northwest Territories, will be the addresses.

The above named lands will be sold by Public Auction on Saturday the twenty-fourth day of November, 1900, at the hour of two o'clock p.m. at the Council Chamber in the Town of Qu'Appelle, N. W. T., unless the arrears of taxes and costs are paid before that date.

J. C. STARR.

Secretary-Treasurer, Municipality of South Qu'Appelle, Council Chamber, Qu'Appelle Station, N. W. T., Aug. 23rd, 1900.

## FIRE IN WINNIPEG.

A BUSINESS BLOCK ON PORTAGE AVENUE DESTROYED.

Building Occupied by M. Conway and J. McLeod Holiday Home—Narrow Escape of the Inmates.

Winnipeg, Aug. 29.—There were probably few citizens of Winnipeg last night who were not awaiting with more or less apprehension the telling of the fire going which has of late become a nightly occurrence. The firemen themselves awaited the same event with calm assurance, but the alarm was not expected till midnight. It came sooner than expected, when number 43 called the north brigade to two burning houses in Point Douglas at about 10.40. Here two unoccupied buildings and the residence of an Icelandic family were almost demolished and just as the fire was well under control fire alarm No. 65 called the centre and south brigades to Portage avenue, where in less than an hour the business blocks from Garry to Smith streets were almost entirely wiped out and \$50,000 worth of property destroyed. While the energies of the entire fire department were concentrated on the most extensive conflagration the city has seen since the Manitoba hotel fire, another alarm came in from Bannatyne avenue, where a private residence was on fire. A few minutes later and Fort Rouge contributed the last straw to Chief Buchanan's distraction by sending in another alarm. And in every instance, it is believed, the alarms were caused by fires of incendiary origin. Evidence was not wanting to show that the wanton destruction of property and perhaps life was contemplated in at least three instances. The diabolical purposes of the field are simply appalling, when it is realized to what an extent his dire intent was accomplished, and that women and children were saved last night from living cremation only by the heroism of police and citizens.

All the small buildings destroyed were owned by companies, represented by Mr. Muttelbury. The large brick veneer building was owned by Mr. Alloway and D. Sprague. All the properties were fully insured. J. McLeod Holiday's stock of fancy goods, valued at about \$10,000, was also a total loss, but insured in the Commercial Union and other companies.

## WANTON DESTRUCTION.

Desolation Along Legation Street, Peking—Attempt to Mine American Residence.

London, Aug. 29.—A Reuter dispatch from Peking, Aug. 15 and sent by post to Shanghai, describes scenes of appalling desolation and wanton destruction in Legation street. All the houses of the foreigners were riddled with shells, burned or blown up. An attempt was made to mine the American legation. A shaft was sunk from the top of the wall fifteen feet deep and was then continued as a tunnel with a sharp slope in the direction of the legation. Apparently the Chinese did not have time to finish it.

The Sicle's report of a defeat suffered by the allied forces at Peking is everywhere discredited. The Chinese legation at St. Petersburg has received news that peace negotiations have already begun.

The Peking correspondent of the Daily News in a dispatch dated Aug. 17 asserts there are thousands of instances going to show the Boers were approved by the Imperial officials in their indecorable ferocity.

Tien Tsai, Aug. 25, via Tokyo, Aug. 28.—Fifty Americans, including the Misses Condit-Smith, Woodward and Paine, have arrived here from Peking, which they left five days ago. The commissary department is preparing to establish an extensive winter base at Tung Su. Lieut. Waldron, of the Ninth U. S. infantry, received a serious sniping wound while patrolling at Hschiu-wu. The Russians, Germans and Japanese are constantly pushing troops to Peking.

Washington, Aug. 29.—The Miss Woodward referred to in the dispatch from Tien Tsai is undoubtedly the daughter of Mrs. Woodward, wife of M. S. Woodward, assistant manager of the Western Adjustment Co. They were guests of Minister Conger at Peking. Mr. and Mrs. Woodward left Evanston in February to make a tour of Japan and China. They were accompanied by Mrs. Conger, wife of the minister. A Miss Mary C. Smith has also been a guest of Minister Conger at Peking and she may be the Miss Condit Smith referred to in the Tien Tsai dispatch. One of the latter's sisters is the wife of Gen. Leonard Wood, governor general of Cuba.

Ottawa, Aug. 29.—The government's decision to grant the Northwest rebellion medals to 331 men out of a total police force of 490, meets with general endorsement here by the men who did some of the most arduous work of the campaign, yet were not "actually under fire." The order passed will entitle each remaining of the 331 who are still alive and were in the Territories at that time to receive the Northwest medal.

## BERGENDAL CAPTURED.

British Had One Officer Killed and Two Wounded—Boers Defeated at March 20th.

London, Aug. 29.—A special dispatch from Pretoria, dated August 27, says: "It is stated that fighting with Botha's commandos was resumed this morning. The Boers' lines were broken and the enemy is falling back. The British casualties are reported to be considerable."

Lord Roberts reports that: "Our movements are slow on account of the extent and nature of the country. To-day we made a satisfactory advance and met with decided success. The work is entirely to Buller's troops and resulted in the capture of Bergendal, a very strong position two miles northwest of Dalmatuntha. I met Buller at Bergendal shortly after it was reached by our troops. I am glad to find the occupation cost less than was feared on account of the approach being across an open glacial for two or three thousand yards, and the determined stand of the enemy. The Inniskillings and Second Rifle brigade formed the attacking party. The latter suffered most. I hope the casualties do not exceed fifty or sixty. One officer was killed and two wounded. A good many Boers were killed and a pom-pom (quick firing gun) captured."

"French advanced on the left to Swart's kopjes on the Leydenburg road and prepared the way for the movement of Pole-Carew's division tomorrow. Baden-Powell reports that he occupied Nylstroom without opposition."

Deserts Her Husband and Child.

Winnipeg, Aug. 29.—The town of Winnipegosis, on the Canadian Northern Dauphin branch, has had a sensation during the past week, caused by the elopement of the wife of Mr. John Clark, with a man named Snears. The woman left her home on Aug. 20, leaving her husband and a little boy nine years of age behind. She took over \$250 in cash belonging to Mr. Clark with her, and after buying a new suit of clothes for her lover in Dauphin left there with him for parts unknown. Mr. Clark is an industrious farmer and respected by the community, who sympathize with him in his trouble. It is hoped by Mrs. Clark's friends that she will see her mistake in deserting a good home and endeavor to return.

AWFUL TIMES AT NOME.

San Francisco, Aug. 29.—A Seattle, Wash., special to the Bulletin, says:

"A terrific storm raged at Nome August 7. There was a heavy loss of life. The water front is lined with wreckage and stranded vessels of all descriptions. Out of 68 steam launches, it is reported that only five remained afloat and of 72 barges all but seven drifted ashore."

Twenty dead bodies were washed ashore and taken to the morgue for identification.

A tale of disease, death and suffering among the Eskimos is reported by Guy H. Stockinger, who has been directing a relief expedition sent out by the government. Stockinger has returned from York and reports natives dying by wholesale, dozens of dead bodies lying around unburied.

TORONTO'S INDUSTRIAL.

Toronto, Aug. 29.—Toronto's twenty-second industrial exhibition opened yesterday afternoon with the customary ceremonies. Premier Ross performed the opening function. An address was presented to him from the directors and in reply thereto he dwelt at some length on the prosperity of the country at the present time and the possibility of greater success yet in the cultivation of the British market. He touched on a point in the address referring to the ties that bind the Dominion to Britain and dwelt on the vital interest of Canada in the affairs of the empire. He said the war in South Africa was not a war for aggrandizement of the empire, but for the defence of its subjects.

REBELLION IN PERSIA.

New York, Aug. 29.—I hear from a thoroughly well informed source that a serious insurrection has broken out in Persia, which will in all probability cause the Shah's visit to Europe to be curtailed, says a cablegram to Times from its Paris correspondent. The object of the revolt is to depose the present Shah, whose fondness for western ideas makes him unpopular to Persians of the old school, and to place his brother on the throne.

St. Louis, Mo., Aug. 29.—Lewis J. Rother, 24 years old, was shot and killed last night by a negro named Henry Fletcher. Fletcher shot Rother without provocation and escaped. Considerable feeling is manifested against the negroes in the neighborhood where the shooting occurred.

London, Aug. 29.—Mr. George Grevelin, C. M. G., British minister resident at Bangkok since 1896, has been appointed British minister to Mexico in succession to Sir Henry Dering, recently appointed British minister at Rio Janeiro.

London, Aug. 29.—The victory of India telegraphs that the good rain continues to fall, but cholera still prevails in many districts in that country.

## ALLIES AGGRESSIVE.

NEW TERRITORY ADDED TO THE PROTECTORATE OF THE ARMY.

Li Hung Wires the Empress Asking That Prince Tuan Be Arrested and His Followers Disarmed.

London, Aug. 28.—The allies, resuming aggressive operations, have taken the district west of Peking. This statement, based on Chinese authority, is based from Shanghai. From the same place comes the further statement that Li Hung Chang has wired the empress dowager at Hsiao Fa requesting the arrest of Prince Tuan and the disarmament of the Boxers in order to give him an opening for negotiations with the powers.

The illuminations projected at Shanghai in celebration of the relief of Peking have been abandoned lest they should cause a native outbreak. "Evidence has been received here," says the Shanghai correspondent of the Standard, "going to show that Gen. Yung Lu was the real author of the anti-foreign outbreak, the empress dowager, Prince Tuan, and the others all having been persuaded by him to take an extreme attitude, while he stood aside and awaited developments." Shanghai advises to the Daily News say that consular opinion there looks upon the Japanese action in the landing of troops at Amoy, despite the protests of the consul, as similar to that of Russia at Newchwang, the whole indicating a tendency to the partition of the empire.

Peking, Aug. 28.—Official dispatches from Shanghai explain that the Han-kow uprising was not due to the Boxers, but was a plot organized by the partisans of Kang Yu Wei, the reformer, combined with the secret society, the Ko Lo Hui, an anti-foreign organization, who proposed to the southern viceroys a revolt against the Peking government.

Berlin, Aug. 28.—A special dispatch to Le-Siecle from St. Petersburg says: "It is persistently rumored in St. Petersburg that the Russian government has received a dispatch asserting that after a fierce battle inside Peking the allies retreated losing 1,800 men, mostly Russians. It is further said that the Chinese occupy fortified positions, from which they are bombarding the allies in a murderous manner."

## BOERS LOSE HEAVILY.

Gen. Oliver Captured—Half the Gunners in Methyl Commando Killed.

London, Aug. 28.—The war office has received the following dispatch from Lord Roberts:

"The Boers have been beaten back by Bruce Hamilton at Winburg. General Oliver has been captured."

The text of Lord Roberts' dispatch announcing the capture of Gen. Oliver shows that three of Oliver's sons also were captured in the attack which the Boers made from three sides of Winburg. Lord Roberts adds that Gen. Oliver was the moving spirit among the Boers in the southeast portion of the Orange Colony during the war."

London, Aug. 28.—During General Buller's recent attack, according to the Daily Mail's correspondent at Lorenzo Marques, the Boers lost heavily. Half the gunners of the Bethulie commando were killed, as well as the Commandant von Daitwig, a cousin of Herr Krupp.

"A council of war of the Boers at Machadodorp," says the correspondent, "decided against the advice of Commandant General Borna to return to the original plan of retreating on Leydenburg." Former President Steyn and Commandant Delarey are reported to have had an interview with Mr. Kruger last Saturday at Watervalsonder.

Writing from Belfast today, Lord Roberts says: "Our casualties yesterday (Sunday) were wonderfully few, considering the heavy firing and the number of hours we were engaged. Buller estimates his as two killed and 34 wounded."

Geloma Farm, Aug. 28.—General Pole-Carew came into touch with the Boers at their main position at Dalmatuntha on Saturday, and shelled a plantation east of Belfast. The Boers replied with long range guns.

Berlin, Aug. 28.—A deputation of German subjects residing in the Transvaal has arrived here to lodge complaint with the German foreign office regarding alleged cruelties of treatment at Johannesburg. They assert that 400 German subjects of both sexes were arrested there and sent to a seaport from which point they were shipped to Flushing, where the British landed them penniless."

TO MEET MR. M'NICOLL.

Montreal, Aug. 28.—C. F. K. trainmen and conductors, who are demanding an increase in their wages, are expecting the arrival in the city tomorrow of Grandmaster Morrow, of the Brotherhood of Trainmen, and Grandmaster Clarke, of the Brotherhood of Conductors. On the arrival of these gentlemen a conference with Manager McNicoll, of the C.P.R., will be resumed, looking towards a settlement of the controversy.

## A WEEKS NEWS

Condensed for Busy Readers.

SATURDAY, SEPT. 1.

A cyclone did much damage in Maine.

The Newfoundland fisheries are said to be a failure.

A big gold strike is reported from the Sierra Nevada country.

The C. P. R. strike is settled and the men have resumed work.

Mr. and Mrs. A. B. B. and child were burned to death in Vancouver.

The Tanshan with Canadian invalids on board will reach Quebec this afternoon. Four bandits blew up the express and baggage cars on the Union Pacific, near Tipton, Wyo.

Eleven Glasgow residents are suffering from bubonic plague, and ships may be quarantined.

The student clutch, with Yukon passers, and gold dust on board is ashore 25 miles from Juneau.

Angus McDonald and daughter, of W. A. B. Assn., were killed on the fall of their house during Tuesday night's storm.

Rec'd the manager of King's Hotel, received a life vest.

Lord and Lady Minto are at Comox, returned from Dawson City.

At the C. P. R. strike the train crew was won by British Columbia.

New Westminster lacrosse team defeated the 28th regt. of M. A. C.

The town of Whitewood, Assn., was almost wiped out by Sunday's storm.

The post office at St. J. A. B. Mich. was robbed of \$2,000 in cash and stamps.

The losses in the St. J. A. B. Mich. block fire in Winnipeg amounted to \$24,000.

Italy has tried to avoid her perils by producing a will to the general public.

Sunday night's hurricane damaged buildings and ruined crops of many districts in western Manitoba and the Territories.

THE CHICAGO PLUMBERS' STRIKE HAS BEEN DECLARED OFF.

Boston's population is 565,892; San Francisco's 342,702.

The Toronto Industrial fair was opened by Premier Ross.

At the G. A. R. review in Chicago, 25,000 veterans were in line.

Mr. Geo. Greffier has been appointed British minister to Mexico.

An epidemic in Winnipeg has caused a sensation in that town.

The new U. S. battleship Alabama has left Philadelphia on her trial trip.

A rebellion in Persia may cause a hurried departure home of the Shah.

"The good rain continues to fall in India," calls the viceroys. "Cholera still prevails."

The apple crop in Canada and the United States will this year be the largest in history.

Up to date this year 361 building permits have been issued in Winnipeg, aggregating \$2,700,000.

The price of American coal has been brought to the level of the best European product in Europe.

Agencies will bring before the U. S. courts recent legislation passed in the Southern States disfranchising their race.

WEDNESDAY, AUG. 29.

Phlegmons are still active in Brockville. Premier Marchand, of Quebec, is very ill.

Thos. Tait, of Guelph, was killed by lightning.

The bubonic plague has broken out in Glasgow.

The young Indians, who have been fighting the Boers, are of Fleming, Assn.

A tornado at Sedalia, Mo., destroyed and damaged buildings.

A duel with regard to a building was fought in St. Paul. One participant will die.

S. Stein, of Montreal, lost his life swimming to rescue a drowning child.

The New Westminster lacrosse club defeated the Nationals of Montreal.

There is a decided improvement in the outlook at Rossland mining camp.

H. H. Stridman, a Baltimore lumber merchant, was murdered in a New York hotel.

Lord and Lady Minto have left Dawson. They visited several creeks, and witness the following:

"All of the iron ore haulers on the Erie docks at Cleveland, about 500 in number, are on strike."

THURSDAY, AUG. 30.

Thos. Sinclair, an ex-H. B. factor, died in Montreal.

Wheat returns in the Emerson district are being sold.

The Brockville police believe they have captured a burglar.

Western railway increase train defeated the 28th regt. of M. A. C.

A magnificent marble statue of Apollo has been discovered in Athens.

The Boers, who have been fighting the Boers, have sued for peace.

The C. P. R. men have agreed to submit the wage increase to arbitration.

A railway strike in Wales is paralyzing the coal supply for British manufacturers.

William Scott, a flat Portage builder, died from injuries sustained last December.

Hamilton bartenders' leaders wish their union recognized, and trouble is in prospect.

The Cuban flag has been hoisted at Santiago de Cuba, the first time since 1898.

The Vesper boat club crew, of Philadelphia, won the eight oar race at Pottsville on Sunday.

A. Richards and R. Curran were severely injured in the Little Stony Mountain gravel pit Sunday.

MONDAY, AUG. 31.

A foot stove factory at Quebec was destroyed by fire.

Alonzo, of Ottawa, had a fatal fall from a horse.

Provisional defeated sharky in the second round at Comox Island.

The G. A. R. national encampment will meet in Seattle on Wednesday.

In Caplin 30,000 Welsh coppers are sold, and not a pound of coal is moving.

A double murder was committed at Montebello village, near Ottawa.

The referee of the Johnson Hackett boat race has given his decision that the colored crew is favored.

The steamer Tanshan has arrived at Port Townsend, Wash., with 600,000 in cargo.

A terrible storm visited Cape Nome. Many lives were lost, and the water front is lined with wreckage.

**TREE CULTURE IN THE NORTH-WEST.**

About twelve years ago the Dominion government acting through the Experimental Farms began the policy of encouraging the growth of forest trees by farmers, especially in the North-West, where vast areas of farming country are almost destitute of trees. Since then 40,000 specimens have been planted at the Central Experimental Farm, 4,000 trees were sent to the Nappan Farm, 65,000 to Brandon, 70,000 to Indian Head, and 35,000 to Agassiz, B. C.

In addition to the trees sent to these branch experimental farms, the Central Experimental Farm distributed among farmers, chiefly settlers in the North-West, about 880,000 young forest trees and cuttings, mostly in bundles of 100 each, and about 9,000 pounds of tree seeds.

In addition to the trees obtained from the Central Experimental Farm at Ottawa the branch farms at Brandon and Indian Head have raised many thousands of young trees from seed of native species and these have been sent out in the plantations. The seeds are obtained from trees growing in the coulees and bluffs in Manitoba and the North-West. Some varieties of trees sent from the Central Experimental Farm to the branch farms at Brandon and Indian Head proved too tender for that climate and died, but many grew successfully. There are now estimated to be about 80,000 trees growing on the farm at Brandon, and 125,000 trees at Indian Head. The Brandon Experimental Farm began distributing trees and cuttings to farmers in 1891 in which year 23,530 were sent out. The number sent out has steadily increased each year and altogether 515,850 young forest trees and cuttings and 15,230 one pound bags of tree seeds have been distributed by this farm. The farm at Indian Head has distributed during the same period 187,000 young forest trees and cuttings and 3,367 one pound bags of tree seeds.

At together the experimental farms have distributed 1,170,000 young forest trees and cuttings and 15,230 pounds of tree seeds. It should be noted that with due co-operation of the experimental farms consider each pound of

seed should produce 800 seedlings. This would mean that over eleven million trees would spring from the trees sent out. No doubt there has been carelessness or lack of knowledge in many cases, but the number of trees raised from these seeds must run into the millions. The farmers of the North-West are also being encouraged to collect seeds from their own trees and The box elder or Manitoba maple is the tree most largely used for distribution and Prof. Saunders says that as this tree begins to produce seed when about six or seven years old, a large number of the trees early distributed must now have reached a seed-bearing age.

The director of the experimental farms reports that the results of this work are now everywhere apparent. On homesteads in almost every part of Manitoba and the Territories, he says, there are small plantations of forest trees which furnish more or less shelter for the growing of garden vegetables, small fruits and flowers, protect the buildings and stock, and make the farms more attractive and homelike.

This is indeed a good work which must prove of immense advantage to Manitoba and the North-West Territories in the course of a few years.

The eastern provinces are so well supplied with trees that there has not been the same necessity for tree planting by farmers as in the North-West. However, many farms in the east have been denuded of trees, and the owners could add to their value by planting some forest trees as well as fruit trees. The encouragement of fruit tree culture is, of course, a different branch of experimental farm work, and it has not proved very successful in the North-West. Montreal Family Herald and Weekly Star.

**TYPHOID FEVER.**

So prevalent had typhoid fever become in Manitoba towns during the last two or three months that the government instructed Dr. Gordon Bell, provincial bacteriologist, to make an investigation into the causes thereof and send in a report. His report has been published and may be summed up in a few words. He finds the chief causes are dirty wells and accumulations of refuse near the houses. The former receive the drainage of filthy refuse and outbuildings and the latter are breeding grounds of the disease germs.

We quote in full his suggestions which, as he says, "if generally carried out would result in this disease, which destroys so many young people, being easily controlled."

1. As regards water supply, it is improbable that anything like the ideal state of affairs will ever be attained. People are entitled to have a well and a furnace and perhaps a stable on a thirty foot lot. The only thing to do is to try to have the well as far away as possible from the other two. Immediate arrangements certainly should be kept clean, raised, and so arranged to prevent, as far as possible, sewage from it, and it should have a water tight cover. It is to be remembered that organic matter in water, though unpleasant to drink of, is only dangerous when infected with disease producing germs.
2. A septic tank may be treated by adding a one per cent solution of permanganate of potash, one quart to every twenty gallons of water, to be left over night and the water pumped out in the morning.
3. That all places of convenience be provided with some clean disinfectant to be applied immediately and freely to urine and other excretions. All these excretions in the house, either used in the form of a milk pail, or by taking one part to ten parts of water. Where this is not available or can not be afforded, the excretions are to be removed.
4. Where the box system is in vogue, these should be hauled with care and made water tight.
5. That no great accumulation of night soil be allowed to accumulate.
6. That all slops and house waste be not thrown on the street, but deposited in some well constructed, such as a deep dug out about six feet

If this is not practicable a quick lime should be used as above.

7. That the promiscuous voiding of urine and faeces in streets and in the vicinity of dwellings should be discouraged.

8. That in the case of patients suffering from typhoid, all urine and faeces be carefully disinfected with chlorate of lime or caustic lime before being deposited in any night soil vault.

It is a pity our Council cannot be induced to take further action for the betterment of the town's sanitary condition. They have control of, at least, the town wells and if these were all cleaned these having wells on their own property might follow the good example. It is a foolish policy to wait until a fever epidemic strikes us before making a move. The expense of cleaning a few wells would be trivial to that arising from an epidemic, not to mention the loss of life that would probably take place. It is scarcely necessary for the Council to wait until a petition is sent in before they get it done either.

Since writing the above we are pleased to hear that a number of public and private wells have been cleaned and other precautions have been taken to prevent the spread of disease.

**BADLY MIXED.**

Because R. L. Richardson refused to support the Dominion government in a number of their transactions during the last four years, notably the elevator bill, the emergency rations whitewash and railway deals, the machine brought out another man to oppose him.

In Alberta the machine is supporting Frank Oliver, though this same gentleman voted against the government on the emergency rations debate and opposed them in other questions in the House.

Mr. W. Scott, candidate for West Assinibola promises to oppose government measures if they are against North-west interests, yet he is being supported by the machine.

Dr. Douglas accused Hon. C. Sifton of being the means of defeating his elevator bill, yet the two will stump East Assinibola together.

We are inclined to ask where are we at, and what secret understanding have Messrs. Oliver, Scott and Douglas with the government that they should receive their countenance while Mr. Richardson is read out of the party.

**R. J. Molloy Dead.**

Brandon, Sept. 2.—R. J. Molloy, one of Brandon's merchants, died last evening. Deceased had been suffering from typhoid fever for three weeks and unfortunately had allowed the disease to progress before calling in medical aid, when, despite the efforts of two of the city's best physicians, he succumbed to the disease. Mr. Molloy came to Brandon three years ago from Kenney, where he had been C. P. R. agent for a number of years, and was previously a telegraph operator for the government in the Territories at the time of the Northwest rebellion. The funeral services will be conducted to-morrow morning at 10 o'clock, at the Roman Catholic church. One of deceased's younger sons was taken down to St. Boniface general hospital yesterday suffering from typhoid, he being the fourth member of the family thus afflicted. It was impossible for him to gain admission to the Brandon hospital, as it was already full. The family has the sympathy of the community at large.

The deceased was an operator in Qu'Appelle for several years previous to his accepting the agency at Kenney and found many friends in this district.

**Are You Engaged?**

Whether engaged or married you should have your life insured. You can make out the policy for whom ever you please. If insured your business standing will be improved thereby. We can give you

**CHEAP RATES in**

*Endowment,  
20 Payment Life, or our  
Combined Term and Renewal  
Option Policy.*

To illustrate this combination feature, we will give the figures: A man of 30 takes one of these combination policies for \$1,000. The first five years will be regular term rates of \$14.90 per annum. At the end of the five-year period, if he has elected to take a whole life policy, the rate will be \$22.45 per annum, which is only a slight increase over the rate usually charged at age 30, when the first policy began. By this means the policyholder is virtually able to keep his age level for five years, so far as insurance premiums are concerned. This is no small advantage when a man wants all the protection a given amount of money will possibly buy.

## STORM DISASTER.

### DESTRUCTION TO THE BUILDINGS IN WAPELLA.

Angus McDonald and Daughter Killed by Fall of Their House—Other Members of Family Injured.

Wapella, N.W.T., Sept. 1.—Wapella was the scene of a disastrous storm of wind, hail and rain. Tuesday night, dark, low-rimmed clouds gathered in the west and northwest of the town about 9 o'clock. Suddenly all was still—a marvellous calm reigned supreme for a few minutes, then the hurricane commenced. The wind blew a regular cyclone. For a short time the heavens appeared to have been opened, allowing the rain to pour down in volumes and with the heavy roll of thunder and the incessant flash of lightning made it a night never to be forgotten by the inhabitants of this little town and surrounding country.

Winnipeg, Aug. 31.—Visitors to the city from every point report that the damage done by the recent severe storms throughout the country is considerable. In Tricherie town a large number of windows were smashed by the hail and standing crops much injured. At Glenboro buildings were blown down and the grain fields in some cases will be a total loss. At Morden and Thorhill a large section of country was visited by a severe hail storm, and reports show that the loss from lightning and hail has been great. The storm was severe in other localities, and when the reports are all in it is feared the loss will be greater than at present imagined.

Gladstone, Aug. 31.—Yesterday, between 1 and 2 o'clock, it was so dark that the lamps had to be lit in the stores. The whole sky seemed to be overcast and the rain fairly fell in torrents for a little while. On Tuesday night we had a very heavy storm, accompanied by hail. This is very severe on the grain in stock.

Margaret, Man., Aug. 31.—A wind storm struck this village 12 minutes after midnight last night, completely wrecking the skating rink and carrying some of the lumber nearly half a mile. Mr. D. Dalgleish will be the biggest loser, as far as the rink is concerned. Wagons and implements which were stored there were tossed about in wild confusion, wagon and grain boxes being torn to pieces. M. D. McKinnon had his shanty roof torn completely off, together with the first row of logs.

### BRITISH MARINES AT AMOY.

Concessions to Its Protected-Japs Withdrawing Their Forces—Russia's Latest Proposal.

Hong Kong, Aug. 31.—The British cruiser *Isis* landed 60 marines at the British concessions at Amoy today. The transport *Formosa* will proceed to Taku, though Gen. Gaslee, commander of the British forces at Peking, wires that he does not require any more troops except cavalry.

Washington, Aug. 31.—A telegram has been received at the Japanese legation to the effect that having been informed by the Japanese consul at Amoy that he has been assured by the Chinese authorities of their readiness to afford full protection to the foreign residents and the property at that point, the Japanese government have already ordered the withdrawal of the marines detailed to protect the Japanese property in the native town and are prepared to withdraw the rest of the marines as soon as they are satisfied that the peace and order of the port are assured.

London, Aug. 31.—Diplomatic circles in London appear to be satisfied that Russia has either directly sent circular notes to the powers proposing the opening of ports to negotiations, or has reached an agreement with the United States in regard to the basis on which the government at Washington shall take the initiative action on the ground that the United States has no entanglements like Manchuria, calculated to arouse the suspicions of the powers. Nothing definite, however, seems to be known at the legations in London, except Russia's anxiety to end the prevailing conditions as speedily as possible, though the opinion is expressed that Russia believes that as a preliminary to the negotiation the allied forces should evacuate Peking and retire with their resident ministers, European and native Christians to Tien Tsin, whence they can better treat with the most responsible Chinamen available.

London, Aug. 31.—The Daily Telegraph observes: "Acceptance of Li Hung Chang is almost the only thing the allies can do. His intervention would undoubtedly make for peace. It is pretty clear that unless the statesman can do something to relieve the tension, affairs so far as the military can deal with them, have arrived at a deadlock." The Times makes no comment upon the Russian proposals.

Victoria, Aug. 31.—The legislature passed a bill yesterday to prevent pauper immigration, framed on the lines of the Natal act, including an educational test. It is aimed chiefly at the Chinese and the Japanese.

## CANADIAN TROOPS.

Lord Roberts Asks That They Be Allowed to Remain Longer in Africa.

Ottawa, Sept. 1.—Lord Roberts has asked that the time of service of the Canadian troops in South Africa, which expires Oct. 15, be extended two or three months.

To Lord Roberts' request for a three months' further enlistment of the Canadian troops in South Africa, there can be but one reply given. It will rest with the men to serve as much over their time as may be required, but as a matter of fact the department, owing to the form of agreement prepared by Mr. Hutton, has no power to compel them to do so.

Lorenzo Marques, Aug. 31.—The British prisoners at Noot Gedacht have been released by the Boers, and are marching to join Lord Roberts' forces at Watervahoven, near Machadodorp. President Kruger and his chief officials are at Nelspruit.

Mafeking, Aug. 31.—A cyclone that visited Mafeking last evening did more damage than the seven months' bombardment. It blew down or unroofed buildings and levelled the military camp hospital, causing much suffering among the sick and wounded. One person was killed and two injured and there were many narrow escapes.

Montreal, Aug. 31.—The Allan line steamer *Tunisian*, on which there is a small party of returning Canadian invalids, passed South Point Inward at 11:30 a.m. today and is due at Quebec at 5 o'clock Friday afternoon.

## DOMESTIC AND FOREIGN.

Telegraphic Intelligence in Condensed Form.

New York, Sept. 1.—Charles Edwards, a young Canadian, is ill at his home, 406 West Twenty-fifth street, today as the result of over exertion at a theatrical performance given last night at Captain's Pier Bath Beach.

Victoria, B.C., Aug. 31.—McLuskie's (Nanaimo) labor bill against the Chinese was given the six months' hoist to night. The night session will probably last till morning to make ready for prorogation tomorrow.

Ottawa, Aug. 31.—Isaac Demers, a man of 58 years of age, residing on Chaudiere street, Hull, dropped dead yesterday afternoon in front of his house. Demers had partaken of a hearty meal of "wumblers and vegetables," which did not agree with him.

Belleville, Aug. 31.—Miss Tillie McCudden, of this city, while returning home from a visit to Toronto, attempted to get off the train at the station here while it was in motion and was thrown between the platform and the track and was so terribly crushed that she died in the city hospital a few hours later.

Toronto, Aug. 31.—At the Walker house yesterday was held the annual meeting of the Canadian Furniture Manufacturers' association. Charles Rogers reported that many enquiries had been made for Canadian furniture from Holland, Denmark, and Norway, and the names of manufacturers prepared to ship.

Ottawa, Aug. 31.—An important deposit of lithographic stone has been found on S. Burnie's land at Lake Temiscaming. This is said to be the only bed of pure lithographic stone in Canada, and in fact will be the only place in Canada where stone will be taken. Most of the stones now in use are imported from Bavaria and a big saving will consequently be effected.

St. John's, Nfld., Aug. 31.—The British cruiser *Charbydis* has arrived here from a short cruise along the northeast coast, where she had been adjusting disputes between the colonial and French fishermen. On the west coast other gunboats are harshly treating the lobster packers. The French stations on the northeast coast have obtained a catch of cod, and the season's fishing is now almost over.

Toronto, Aug. 31.—At the annual meeting of the Canadian Manufacturers' association a report was presented from the tariff committee in reference to the preference to British goods. A resolution asking for an insolvency act from the Dominion government carried. The railway and transportation committee brought up the shipping at "owner's risk," also the alleged discrimination of freight rates in the west.

## PRINCE ALBERT MYSTERY.

West Prince Albert, Sask., Aug. 31.—On Tuesday a child three or half years old, son of David McBride, of Sanderson's sawmills here, became separated from its mother, and some friends, who were picnicking on the other side of the Saskatchewan river. Although the child was out of sight only about 10 minutes before it was missed and search began, all efforts to find it up to the present have failed. Nearly every citizen of Prince Albert has been engaged in the search since Tuesday afternoon, and the place, which is about four miles from the town, has been thoroughly beaten, but not the slightest trace has been found. The spot is heavily wooded and filled with an undergrowth of young pines, so that the child could not possibly wander far. Many are beginning to incline to the theory that it has been kidnapped or possibly taken by some wild animal.

## A SEVERE STORM.

### MUCH DAMAGE DONE TO BUILDINGS IN WESTERN TOWNS.

Dispatch From Whitewood, N. W. T., Reports a Serious Condition of Affairs—Horses Killed.

Souris, Aug. 30.—The worst storm ever witnessed in this district passed over here last night leaving many evidences of its effectiveness.

About 10 o'clock clouds began to gather in the west, and the lightning flashed incessantly. About two hours afterwards the storm reached here, accompanied by rain, hail and a terrific hurricane of cyclonic nature, causing considerable damage throughout the town and district.

In town the Sowden rink, a building about 100 feet, was lifted off its foundation and carried about the width of itself, where it collapsed. The other large skating and curling rink, belonging to the Souris Rink Co., also suffered, the north end being blown in about three feet at the bottom, and a piece about fifteen feet square torn out of the roof.

The fence around the Turf club grounds is all down and the grand stand turned upside down. The tower of the Roman Catholic church and the top of the front of Crawford's brick store was also blown down as well as the smokestacks of Sowden's and Deyley & Co.'s elevators.

Whitewood, Aug. 30.—A cyclone struck the town about 5 o'clock Wednesday night, and demolished most of the town.

Thornhill, Aug. 30.—One of the most severe electric storms of the season passed over this district last night, doing considerable damage. A stable containing eleven horses belonging to Mr. M. Nichol, of Calf Mountain, was struck by lightning and burned to the ground. Not one of the horses escaped.

A storm believed to have been of serious character swept over the country between Deloraine, Nipawin, and as far west as Rocky Mountains. All the C. P. R. wires were broken down. The Millwood valley on the northwest section of the C. P. R. was also visited and considerable damage is believed to have been done there also.

## CANADIAN MISSIONARIES.

Accounts of the Journey From Honan to the Coast by Presbyterian Ministers, Avoiding Watchful Boxes.

Vancouver, Aug. 30.—Seventy missionaries from China returned today by the Empress of China. Many had almost miraculous escapes; fortunate circumstances alone saved them.

After the trouble had come to a head, Rev. J. M. Menzies, with his wife and family, were on their way to the coast for a brief visit. They started from their station at Honan, and were not aware of any trouble when they left. In company with them were Dr. McLeure and Dr. (Mrs.) Wallis, also going to the coast. These members of the party attribute their escape entirely to the efforts of John Fowler, American consul at Chefoo.

"We were four days late in starting," said Dr. Menzies, and those four days' delay, I believe, the saving of our lives. Had we started at the time we originally intended we would have been in the heart of the Boxer infested district. As it was, we had reached Peking Chung, and at that place there was messages from Mr. Fowler, a warning that all traffic on the river was extremely dangerous, and that any missionaries in the interior should hurry at once to places of safety. Had we gone on, "a few miles further we would have been shot by the Boxers, who were watching on both sides of the river, and let no boat pass."

With an escort we were enabled to reach the coast. And there it was that the services of Mr. Fowler proved so helpful to our party. It was not a safe place to remain in, and I have no hesitation in stating that the story would not be as it now is had it not been for the aid rendered us by the American consul.

## GREAT BRITAIN'S POLICY.

London, Aug. 30.—Mr. St. John Brodick, under secretary of state for foreign affairs, speaking this evening at Thurston, said the situation in China was considerably involved because there was no Chinese government with which to negotiate. "Great Britain," continued the under secretary, "while prepared to support the loyal viceroys of south China who have stood aloof from this insurrection and while prepared also to preserve British trade with China, will claim some penalty or indemnity for the damage wrought. Nevertheless we cannot undertake to govern China ourselves or with the assistance of other powers."

Cornwall, Aug. 30.—Fire in the hardware store of Alex. Jarvo caused a loss by water and smoke amounting to \$8,000.

Ottawa, Aug. 30.—Military orders announce that Col. Otter is promoted to a full colonel.

## MARCHADODORP TAKEN.

Boers Are Making a Poor Defense—Difficulties in Forcing the Enemy.

London, Aug. 30.—Lord Roberts reports under date of Belfast, Aug. 28: "Buller's advance occupied Marchadodorp this afternoon. The enemy made a very poor stand and retired northward followed by Buller's mounted troops, who could not proceed beyond levelina on account of the difficult nature of the country, and the enemy taking up a position too strong to be dislodged by the mounted troops. It appears that Buller's casualties were very few."

French continued the movement today as far as Elandsfontein, from which he turned the enemy out with no difficulty. The latter retired very rapidly, leaving cooked food behind.

Gen. Buller's casualties on Aug. 27 were: Killed, one officer and thirteen men. Wounded, seven officers and fifty-seven men.

## THE WORLD'S DOINGS.

Condensed Paragraphs Culled From Cables and Wires.

Ottawa, Aug. 30.—The body of an unknown man, who looks like an Italian, was fished out of the Gattineau river, near its mouth, yesterday afternoon.

Victoria, Aug. 30.—Lord and Lady Minto reached Comox last night on the Dominion steamer *Quadra*, on their return trip from Dawson. They will arrive here Friday.

Watske, Ill., Aug. 29.—Mrs. Dr. Wright, brought here from Gillman, Ill., died from the effect of her wounds received in the attack on her house Sunday night.

Rome, Aug. 30.—At the close of the trial yesterday of Bresci, the anarchist, who assassinated King Humbert, the prisoner was pronounced guilty and sentenced to imprisonment for life.

Chicago, Aug. 30.—George H. Ling, who saved the lives of scores of persons at the time of the Johnstown flood, fell from a train at South Chicago yesterday and was instantly killed.

Neepawa, Man., Aug. 30.—The Currie brick block on Hamilton street was gutted by fire early this morning. Loss \$1,000. The building was fully insured. The cause of the fire is unknown.

St. Joseph, Mich., Aug. 30.—Professional safe-blowers cracked the safe in the post office last night and secured between \$3,000 to \$5,000. The extent of the loss has not been determined. No arrests have been made.

Montreal, Aug. 30.—Fire caused by spontaneous combustion started this evening among raw cotton in the storehouse of the Dominion Cotton Mills company at their St. Anne's mill. The firemen had difficulty in subduing it, owing to the dense smoke. The loss is estimated at about \$50,000, fully covered by insurance.

Montreal, Aug. 30.—Grandmaster Clarke, of the Brotherhood of Railway Conductors, has arrived here to confer with the committee of C. P. R. conductors and trainmen over the decision of the management on the request for an increase in pay. Grandmaster Morrissey, of the Brotherhood of Trainmen, is expected tomorrow.

St. John's, Nfld., Aug. 30.—De Greenel, superintendent of Deep Sea Mission of Labrador fishermen, who arrived here today, reports that a large four-masted trans-Atlantic passenger steamer narrowly escaped becoming a total wreck in the fog in the straits of Belle Isle within a few miles of the point where the British steamer *Scotman* was wrecked Sept. 23, last.

Hamilton, Aug. 30.—The employees of the Cataract Power company returned to work this morning, the company having agreed to recognize the union and grant a small increase of wages. Sixty men employed at the quarry quit work yesterday because Engineer Wingham employed a timekeeper not a member of the civic employees' union.

Buda Pest, Aug. 30.—Giuseppe Tomazzo, a Venetian, who is believed to have been an accomplice of Luigi Lucheni in the assassination of Empress Elizabeth of Austria, has been arrested. He was seen with Lucheni shortly before the empress was stabbed to death, but disappeared. He has been living here under the name of Josef Gros.

Vancouver, Aug. 30.—The Empress of China arrived from Yokohama last evening with 303 passengers, including Capt. Limpus, of H. M. S. *Terrible*, who was with Sir George White in Ladysmith and subsequently took the vessel out to China station. Also Commander Beatty, R.N., invalided home with two bullets in his left arm, received during the attack on Tien Tsin.

## IMPORTANT DECISION.

Winnipeg, Wis., Aug. 30.—An important bankruptcy decision has been filed here by Judge Lachren in the case of W. S. Trowbridge, insolvent. The decision is in effect that under the bankruptcy act no creditor can have his claim allowed until he surrenders to the trustee any money or property he may have received from the bankrupt within four months prior to bankruptcy, without regard to the creditor's knowledge of ignorance of the fact that his debtor is in danger of bankruptcy.

## CHOLERA EPIDEMIC IN INDIA.

One of the Worst on Record—The Native Dying Like Flies.

London, Aug. 28.—The present epidemic of cholera, says the *Simla* correspondent of the *Mail*, is one of the worst outbreaks on record. The epidemic plague is child's play in comparison to it. The natives are dying like flies at the rate of 3,000 a week. The epidemic is undoubtedly due to the pollution of the scanty water supply during the famine.

## CANADA AND ABROAD.

A Budget of Important News Condensed.

Toronto, Aug. 28.—Bessie Vandell, a little girl, fell off the dock at Midland and was drowned.

Guelph, Aug. 28.—Charles Tait, of this city, was killed by lightning while drawing in a load of oats. His team was also killed.

Glasgow, Aug. 28.—The *Allan* line steamer *Brazilian*, from Montreal for this point, arrived out Sunday afternoon and landed her shipment of live stock without loss.

New York, Aug. 28.—It is said by New York that William C. Whitney paid Tod Sloan \$10,000 to cross the Atlantic and ride Ballyhoo Bey, the winner of the Great Futurity.

St. Paul, Aug. 28.—The Minnesota and Northern elevator at Arville, N.D., was burned last evening, with 300 bushels of wheat. The loss on the building will be about \$2,000.

Toronto, Aug. 28.—Eddie Gurnan, of this city, is anxious to get on a match with Bob Johnson, who recently defeated Jack Hackett, of Bat Portage, in a sculling match at Vancouver.

Glasgow, Aug. 28.—Three persons, father, mother and child, who have been certified to as suffering from epidemic plague, have been placed under the care of the medical authorities here.

Montreal, Aug. 28.—Premier Marchand is quite ill and will be unable to give any attention to public affairs for some time to come. Mr. Duffy is now transacting the work of the finance department.

Montreal, Aug. 28.—The officers of the Royal St. Lawrence Yacht club are expecting an English challenge for the *Seawhaka* cup next year. They decline to name the club from which the challenge will come.

New York, Aug. 28.—B. H. Stridorn, a lumber merchant of Baltimore, was shot in the back of the head and through the eye at the Hotel Vendome by H. J. Ford, who registered from Boston. Ford then committed suicide by blowing out his brains.

Fleming, Assa, Aug. 28.—William Charl Yeoman, aged 36, of Toronto, while getting ready to drive to Ekohorn this morning, suddenly took ill, and died in ten minutes. Dr. Kondejce, coroner, held an inquest and gave the cause as heart failure. The body goes to Toronto for interment.

London, Aug. 28.—A special United States official is here, says the *Vienna* correspondent of the *Times*, investigating the condition of the Roumanian Jewish emigrants who intend to go to North America. He is particularly active in view of those who are suspected of planning of getting into the United States through Canada.

London, Aug. 28.—Ald. Frank Plant has been officially notified of his appointment to a position in the labor bureau of the Dominion government. He will assist on the Labor Gazette, and in carrying out the fair wage clause in government contracts, and also help inaugurate the conciliation measure in settling labor disputes.

Cleveland, Aug. 28.—All of the iron ore handlers employed on the Erie railway locks in this city, about 600 number, went on strike yesterday as a result of the refusal of the owners of the steamer *Simon J. Murphy* to allow a claim for extra compensation for unloading a wet cargo of ore.

London, Aug. 28.—"The epidemic of cholera," says the *Simla* correspondent of the *Daily Mail*, "is one of the worst outbreaks on record. The epidemic plague is child's play compared with it. The natives are dying like flies at the rate of 3,000 a week. The epidemic is undoubtedly due to the pollution of the scanty water supply during the famine."

Sedalia, Mo., Aug. 28.—A storm bordering closely on a tornado struck this city this afternoon. Three brick buildings on Main street were blown down, Caswood's opera house was unroofed and dozens of smaller buildings were damaged. Thousands of shade trees were broken and torn up by the roots. Street car traffic was suspended and telegraphic and telephone communication was interrupted.

## B. C. SESSION ENDING.

Victoria, Aug. 28.—The government appear desirous of ending the session by rushing through all remaining business during an all night session. Strong resolutions were passed today, urging the Dominion government to pay the judges of the province better, making their salaries equal to those of the eastern provinces, also to establish a Canadian mint and to pass a Natal act with a provision for keeping out Chinese.

Qu'Appelle Station

## LOCAL NEWS

The local from the east was two and a half hours late on Thursday last.

The Commercial says that R. Edgar has purchased the Royal hotel, of Indian Head, lately owned by A. Davidson, possession to be taken on Sept. 1.

### Good Sport.

Messrs. Lidgate and James went out Monday for a morning's shooting and returned about noon with ten ducks and a crane. We have to thank Mr. Lidgate for several ducks presented to us. Who's next?

### The Emeralds.

The two gospel temperance singing evangelists, J. Parsons Smith and Prof. J. C. Miller will appear before Qu'Appelle audiences in the Methodist church, Sunday Sept. 9 at 3:30 and 7 p.m., and in the town hall, Monday Sept. 10 at 8 p.m. African War, Passion Play and other scenes will be exhibited, interspersed by songs and corned solos. Sunday meetings silver collection. Admission at town hall, 15 cents.

### Hist. and Scientific Society.

We have to acknowledge the receipt of the annual report for 1899 of the above society of Manitoba. Accompanying the report are two interesting papers in pamphlet form which were read at recent meetings of the society. "On the St. Paul Trail in the Sixties," by W. G. Fonseca, gives a very realistic view of life in a "prairie schooner," while "The present status of Natural Science in Manitoba and the North-west," by Rev. W. A. Burman, B.D., is a clear outline of the work being done in the different branches of science and should prove of great value to students of the subjects discussed.

### Labor Day.

This holiday was better observed in town than ever before. The stores were closed and a number took advantage of the opportunity to go duck shooting. In the afternoon a base ball match, school boys vs. town boys, took place resulting in the former winning by two runs. The boys have the making of some good players. The Church of England took advantage of the day to hold their annual picnic which was well attended. The polo club also played a friendly game with Indian Head, resulting in a win for the Qu'Appelle team.

### Four Millions Profit.

A few shrewd Canadians once made four millions of dollars clear profit out of building a small railway, of which most Canadians have never heard. The railway in question was the "Qu'Appelle, Long Lake and Saskatchewan Railway" which in 1887 received grants from the Dominion government. The land granted to this Company was sold for over \$3,500,000, and from the sale of bonds and the cash subsidies the Company got about \$3,000,000 more, making a total of \$6,500,000. The total cost of the road is estimated to have been not more than \$2,500,000, leaving a net profit to the promoters of the road of four millions. The C.P.R. supplied the terminals and the rolling stock and leased the road under a rental, thus taking the railway off the hands of the original owners.

This is one of the many railways sold which Mr. R. L. B. has sold, M.P., is now selling in The Canadian Magazine in a series of four articles. Mr. Richards believes in Government ownership of railways and is within these articles in order to lay his views before the people of Canada.

## LOCAL NEWS

See the Free Press picture in our window and read our clubbing offer in this issue.

### More Cattle.

Another band of 500 head of cattle were brought in from Touchwood on Wednesday for shipment. They are a fine lot of animals and should bring the highest market price.

### Qu'Appelle Do Move.

Mr. J. C. Starr is putting up a new house just west of J. B. Robinson's. The C. P. R. section house has been re-sided and newly painted and presents a much brighter appearance. It is reported that W. G. Vickers has bought the house and lot owned and occupied by John Gray.

### Political Meeting.

Hon. C. Sifton and Dr. Douglas, M.P. for this riding, will address the electors at Fort Qu'Appelle on Tuesday, Sept. 11, beginning at 3 p.m. The opposition are arranging to have a representative on the platform and an interesting time may be looked for.

### Viceregal Party Coming.

Lord and Lady Minto and party are expected here about Sept. 30. There is no doubt that the people of this district will wish to show their loyalty to the Queen and do honor to her representative. We would, therefore, suggest that the Council call a public meeting to arrange for a hearty reception. The Council might also make a grant for decorations and entertainment. Do not wait till the last minute before making a move.

### A Good Sign.

Mr. Campbell, manager of the Qu'Appelle Creamery, informed us last week that the amount of butter then made this season exceeded the total make of 1899. This is a most satisfactory showing. The number of patrons is slightly in excess of last year and the supply of cream is larger and more regular. There is no doubt that the financial prospects are better than ever and this should induce many who have previously withheld their support to go in next year for a share of the cream of the profits on cream.

### Ag. Institute.

As previously announced the Qu'Appelle Ag. Society will hold the first of a series of institute meetings in the town hall on Saturday next, Sept. 8, beginning at 2 p.m., sharp. It is hoped a large and representative audience will be present prepared to ask and discuss questions that may arise. The farmers in this district have gained a reputation for good, scientific farming and should endeavor to sustain that reputation. It cannot be done by staying on the farm and working like machines. Among those from outside points who will address the meeting are G. H. V. Bulyen, Commissioner of Agriculture or C. W. Peterson, Deputy Commissioner, T. N. Wilking, Territorial Weed Inspector, and Angus McKay, Supt. Indian Head Experimental Farm. The following gentlemen from this district will give papers: Leo Bell, on "Cream Separators"; J. P. Jones, on "Social Side of Farm Life," and G. C. D. Edmonds, on "Farmers' Markets." The hall will be appropriately decorated for the occasion. A full attendance is requested.

## PERSONALS.

R. B. Gordon and J. D. McArn, of Indian Head, paid a flying visit to our town on Friday last.

Mrs. J. McNaughton and daughter spent several days in Regina last week.

W. A. Hensbach, J. A. McDonald and D. H. McDonald were in town Wednesday.

Mr. and Mrs. C. F. Musgrove and family returned from their ranch in Touchwood Hills on Saturday last.

Mr. R. Fisher, formerly of this town, was crossing a stone bridge at Westburn. He had it partially completed when heavy rains undermined its structure, rendering it uninhabitable. His loss is about \$2,000.

## For Fall 1900.

J. P. BEAUCHAMP & Co

## Fashionable Wedding.

The marriage of Mr. H. B. Shaw and Miss Grisdale took place in St. John's Church on August 29th. The church had been prettily decorated for the occasion. The Archbishop of Rupertsland performed the ceremony and was assisted by the Rector and the Rev. A. J. Balfour, uncle of the bridegroom. The bride was given away by the Bishop and was assisted by Miss Drewry who acted as bridesmaid. Mr. C. S. Pidecock was best man. The reception held after the service at Bishop's Court was attended by many friends from various parts of the country. Mr. and Mrs. Shaw left on the limited for an extended trip in British Columbia and the West. We are sure that all our readers will join with us in wishing Mr. and Mrs. Shaw a long and happy married life.—Parish Magazine, Indian Head.

## Springbrook.

From our own correspondent.

Mr. Geo. Booth of Elzeley has been assisting Mr. Angus Stewart with harvest operations.

Rev. Mr. Thompson of Balgonie preached a very acceptable sermon here on Sunday in the absence of Mr. Squire.

Miss Minnie McKenzie is staying with Mrs. Stevens in Saltoun at present.

Miss Knight, of Toronto, is up on a visit to her cousin, Mrs. Hockley.

Mr. Jos. Grey, of Egg Lake, made a business trip to the settlement last week.

Mr. and Miss Radcliffe of Wide Awake visited us on Sunday.

Mrs. and Miss Grigg have been very busy recently moving into their new residence.

A number of our young men intend going to British Columbia for the winter.

Threshers have been busy canvassing the district for threshing this last week. Three machines intend coming in.

We are sorry to say the eldest little boy of Mr. John Stewart had the misfortune to fall off a chair and broke his arm in two places.

Farmers took advantage of the poor stacking weather last week to cultivate their summer fallows and destroy weeds. A number have gone over their summer fallows and picked the weeds out by hand. So many weeds this year have taught the farmer considerable, as has been evidenced by the fact that land has been thoroughly cultivated this year.

Mrs. E. Ambler.

Your Lebrat correspondent says "the electors of Eastern Assa. have been humbugged quite long enough." He is quite right, we were humbugged for eighteen years and it is not likely the people will commit themselves to it again after securing a member who has worked for their interests for the last four years and not without success to crown his efforts either.

## Struck by a Cyclone.

Whitewood, Moosomin, Wapella, Virden and other western Manitoba and Eastern Saskatchewan towns suffered severe damage by a cyclone on Tuesday, Aug. 28. Whitewood is estimated to have been damaged to the extent of \$10,000.
